

# WELCOME

- I AM : SARTHAK PRAKASH JADHAV
- I AM HERE TO PRESENT MY PROBLEM STATEMENT.
- ALL IN ONE TOOTHPASTE DISPENSER

# PROBLEM STATEMENT

- ▶ ALL IN ONE TOOTHPASTE DISPENSER IS EXPENSIVE BUT WE ARE MAKING IN LOW COST .

# SOLUTION

- ▶ In this time all people want affordable things so for this I am making affordable toothpaste dispenser that will be Taking low cost for making and that why that will be in low Cost for needed peoples .
- ▶ Also this is helpful for kids because when kids take the toothpaste that time they wast that lot so parents can take and this affordable.

# REQUIRED MATERIALS

1. 3 Hard plastic cup
2. 3 Spring from pen
3. 3 Top of soap dispense
4. 3 Pieces of plastic
5. Silver spray paint
6. 3-4 inch long nail

## WORKING

- ▶ Take one plastic cup, make a hole at middle length of Cup.
- ▶ Take a spring place in the hole of cup.
- ▶ Take a piece of plastic such as ( spoon).
- ▶ Also take 3-4 inch long nail .
- ▶ When we put toothpaste inside the glass so spring will Give pressure on toothpaste so that will come down.
- ▶ Also we are adding handwash ,fash wash and sanitizer.

Thank  
you
